The Urological Cancer Multidisciplinary Team

Department of Urology

www.ulh.nhs.uk

Who are we?

A group of highly qualified, dedicated professionals who work closely together and meet weekly on a Thursday afternoon to diagnose your illness, to discuss treatment plans and to decide the most appropriate treatment to offer you.

All patients are different and have different needs and are given individualised care planned with the patient as an integral part of the team.

The Team

Aims to provide the highest possible standard of care and support for you and your family.

The team may invite additional professionals to join them in their discussions about your illness, if they believe that this will benefit your treatment and progress.
